Re: Sensipar  
Docket Nos. 04E-0399, 04E-0391, and 04E-0446

The-Honorable Jon Dudas  
Acting Under Secretary of Commerce for Intellectual Property and  
Director of the United States Patent and Trademark Office  
Box Pat. Ext.  
P.O. Box 1450  
Alexandria, VA 22313-1450

Dear Acting Director Dudas:

This is in regard to the applications for patent term extension for U.S. Patent Nos. 6,313,146; 6,211,244; and 6,011,068 filed by NPS Pharmaceuticals, Inc. under 35 U.S.C. § 156. The human drug product claimed by the patents is Sensipar (cinacalcet hydrochloride), which was assigned NDA No. 21-688.

A review of the Food and Drug Administration's official records indicates that this product was subject to a regulatory review period before its commercial marketing or use, as required under 35 U.S.C. § 156(a)(4). Our records also indicate that it represents the first permitted commercial marketing or use of the product, as defined under 35 U.S.C. § 156(f)(1), and interpreted by the courts in *Glaxo Operations UK Ltd. v. Quigg*, 706 F. Supp. 1224 (E.D. Va. 1989), *aff'd*, 894 F. 2d 392 (Fed. Cir. 1990).

The NDA was approved on March 8, 2004, which makes the submission of the patent term extension application on May 6, 2004, timely within the meaning of 35 U.S.C. § 156(d)(1).

Should you conclude that the subject patents are eligible for patent term extension, please advise us accordingly. As required by 35 U.S.C. § 156(d)(2)(A) we will then determine the applicable regulatory review period, publish the determination in the *Federal Register*, and notify you of our determination.

Please let me know if we can be of further assistance.

Sincerely yours,

Jane A. Axelrad  
Associate Director for Policy  
Center for Drug Evaluation and Research
